- (a) Those signs indicated in the commercial use table, Section 18.24.030, as requiring a use permit;
- (b) All dwellings, as defined in Section 18.04.130. (Ord. 1149 § 55, 1992; Ord. 1112 § 49, 1991; Ord. 946 § 2 (part), 1981).

No building shall be hereafter erected or constructed nor any existing building structurally altered or enlarged along the length of the building facing a street frontage in the C-2 district unless the following yards are provided:

- (a) Front Yard. There is no front yard requirement in the C-2 district except that a fifteen-foot front yard setback for a distance of twenty-five feet from an R district boundary shall be required adjacent to an

R district. The front yard shall be landscaped and shall not be used for parking or loading. Any required front yard shall be landscaped, installed and maintained as set forth in Chapter 18.86 of this code. Upper stories or roofs may be built over areas required for front yards provided that such recessed area shall have a minimum vertical clearance of twelve feet.

(b) Side Yard. There is no side yard size requirement in the C-2 district except that where the side line of a C-2 lot abuts an R district there shall be a side yard of five feet. No side yard is required adjacent to an alley. For corner lots the required side yard adjacent to the street shall be the same as the required front yard.

(c) Rear Yard. The rear yard shall be twelve feet where accessible from a street, alley or parking lot for loading purposes, or five feet where rear yard is adjacent to an R district. Where a rear yard abuts an R district, a solid masonry wall not less than five feet or more than six feet shall be constructed adjacent to said line. Otherwise, there is no rear yard requirement in the C-2 district. The building may project over the rear yard area providing fourteen feet clear vertical distance from ground level is maintained and the yard is not adjacent to an R district.

(d) Side or Rear Setbacks. For every building in the C-2 district over thirty-five feet in height above the adjacent finished grade or a contiguous residentially zoned property, a three-foot setback shall be required for each additional ten feet of vertical height, or fraction thereof; provided, however, that the setback need not exceed fifteen feet and no setback shall be required adjacent to an alley. (Ord. 1148 § 7, 1993; Ord. 946 § 2 (part), 1981).

COMMERCIAL USE TABLE

Sections:

- 18.24.010** **Purpose.**
- 18.24.020** **Permitted uses in commercial districts.**
- 18.24.030** **Commercial use table.**

Section 18.24.010 **Purpose.**

The purpose of the commercial use table is to designate the uses permitted within each of the following zones:

- (a) C-1 neighborhood shopping district;
- (b) C-2 community business district;
- (c) C-3 general commercial district;
- (d) CH highway service commercial district. (Ord. 946 § 2 (part), 1981).

Section 18.24.020 **Permitted uses in commercial districts.**

With regard to the table set out in Section 18.24.030, an (X) indicates that the described use is permitted in the zone represented by the symbol appearing at the top of the column. An (O) indicates that the described use is permitted in the zone provided a use permit has been granted by the planning commission. If a use is not listed in the table, the planning commission, upon written request, shall determine whether or not such use is similar in character to a described use for the purposes of applying zone district regulations and special conditions. In instances where the use includes activities similar in character to more than one of the specific uses set forth in the commercial use table (Section 18.24.030), a use permit shall be required if any of such activities or uses would require a use permit. If a use is not similar to uses in the commercial use table, it will be allowed only with a use permit. (Ord. 1149 § 51, 1992; Ord. 1112 § 46, 1991; Ord. 1041 § 2 (part), 1986; Ord. 946 § 2 (part), 1981).
