

Marysville Fire Safety Open House

In an effort to educate the citizens of Marysville and the surrounding communities about the importance of fire safety and the role that they play in keeping our town safe, the Marysville Fire Department organizes a Fire Safety Open House at the fire station during National Fire Safety Week in October. Below are the photos from the most recent Open House. When the details of our next Open House are available they will be posted on the site.

Firefighter Paustian is lifted on Ladder Truck

Ron Welch teaches fire extinguisher techniques.

The crew of CHP's H20 invites the public to tour their helicopter
